Statement in Support of Families

At the core of the National Center for Families Learning’s mission are the families we serve across the country. We work to strengthen, support, and empower them to reach their full potential. We have partnered with thousands of families who have sacrificed and worked hard to provide for themselves, build their communities, and create opportunities for future generations. Many of these families are being torn apart by divisive systems and groups.

The destruction of families compromises the strength of any society. We are living in the shadow of continued acts of terror and hatred, which diminish the quality and security of human lives—lives that are valuable and deserve to be respected. The solution to the violence we are experiencing transcends political parties or any individual leader.

To the families directly impacted by these acts, know that NCFL will always stand alongside you and applaud your tenacity to break generational cycles of poverty, build strong families, and create more robust communities.
